# Wii?

---

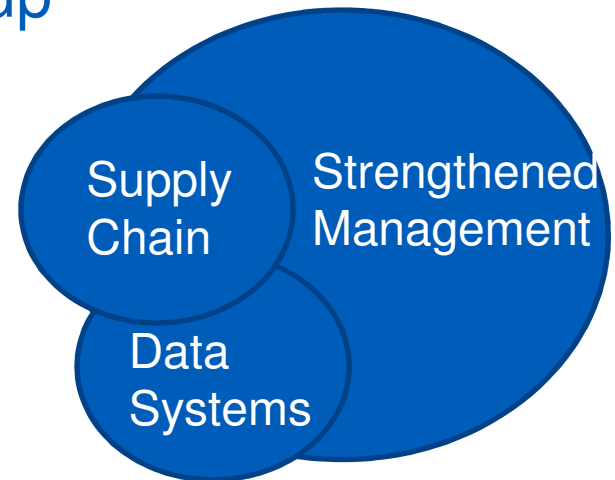

# Who WE are

*Who makes the enabling environment*

---

## At country level

- Leadership of MoH EPI or Supply Chain Management team
- National Logistics Working Group

## At global level

- Siloed by fundamental?
- Passionate

# What WE do together

## What does an enabling environment achieve

- Evidence-driven continuous improvement
- Shared theory of change

### Updated Theory of Change - 2017

#### Driving progress towards the Alliance's coverage and equity goals

*If countries have reliable financing & the following fundamentals in place...*

*...vaccines will be*

**Available**  
In the right place at the right time

**Potent**  
Providing a high level of immunity

*...Risks of vaccine loss will be mitigated*

*...and systems will be*

**Efficient & Resilient**  
Resources going further

*...helping to achieve sustainable improvements in*

Vaccine coverage & equity

Under-5 mortality

14

## ...Immunisation Supply Chain is kilometres ahead

# How WE engage

*How does an enabling environment work*

---

## **Technical: The easy part in many respects**

- Public, Private, NGO, South to south

**Comparative advantage:** How the WE fits us all together

**Reach: At scale vs project based**

## **Political**

- East African Community
- Addis Declaration on Immunisation: “Focus on building data-driven supply chains to safely and reliably deliver potent vaccines to all people.”

**Resources** (scaled to aspiration)

**Urgent?**

**Especially how WE engage to support countries and with each other**

---

# Results WE deliver

*Telling our story through (increasing) data*

## Contributing to country progress on

- Coverage & equity
- Availability, Potency, Efficiency and Risk Mitigation
- Fundamentals

Data and monitoring of supply chain strengthening and improved outcomes

...System improvements monitored through comprehensive Effective Vaccine Management Assessments

...Supply chains outcomes monitored through Dashboards for Immunisation Supply Chains (DISC)

	Availability	Potency	Efficiency
Close vial wastage	X	X	X
Forecasted Demand Ratio	X		
Full Stock Availability	X		
Functional Status of Cold Chain Equipment		X	
On-Time and In-Full Delivery	X		X
Stocked According To Plan	X		X
Temperature Alarm Rate		X	

- Immunisation Supply Chain is kilometres ahead

# What does enabling mean for “WE”

## Enabling means:

- **Getting up**
  - Can't just sit on the couch
  - Can't just push some buttons and hope your score is high enough
- **WE need to engage fully**
  - Supporting countries
  - Supporting each other
  - Supporting improvements in cEVM scores
  - Supporting Availability, Potency, Efficiency, and mitigating Risks.

# What does enabling mean for “WE”

## Enabling means:

- **Getting up**
  - Can't just sit on the couch
  - Can't just push some buttons and hope your score is high enough
- **WE need to engage fully**
  - Supporting countries
  - Supporting each other
  - Supporting improvements in cEVM scores
  - Supporting Availability, Potency, Efficiency, and mitigating Risks.

***Challenge to you:** This week, reach out directly to someone working in another part of the iSC space. Ask how your work can contribute to their, and our, shared success.*

**THANK YOU**
